Product Details

STL's Celesta Ribbon Cable combines robust performance for duct installations with the productivity of high-count mass fusion splicing. The innovative bond design results in dense fibre packing and smaller cable diameter. This cable offers an outstanding solution for demanding high-growth, high-bandwidth communications applications like data centers, equipment connections within cabinets, outside plant applications

Cable Performance Standards

Cable complies to the following standards IEC 60794-5-10, GR-20, ITU-T, RoHS, REACH

Printing Details

Printing : STL SM 432F G657A2 LASER SYMBOL TELEPHONE SYMBOL CELESTA RIBBON MICRO DUCT CABLE MONTH & YEAR OF MFG. LENGTH CODE METER MARKING

Note : The accuracy of marking shall be + 1.0%. Occasional loss of printing & remarking shall be as per Bell core GR 20 and this supersedes the earlier markings.
