

CABLE MANAGER 1RU

STL high quality cable managers are the best suited for proper dressing of optical fiber patch cord cables in 1RU space. The soft and flexible cable management rings help insert and remove the patch cords cables comfortably without and effort. The rounded corners of the cable management ring ensure that the soft outer sheath of patch cords are not damaged during the placement and removal of the patch cords during the cable routing process. Special cold rolled high carbon steel back plated coated with black color ensures robust support for all the patch cords being routed through the cable manager on either side of the rack.

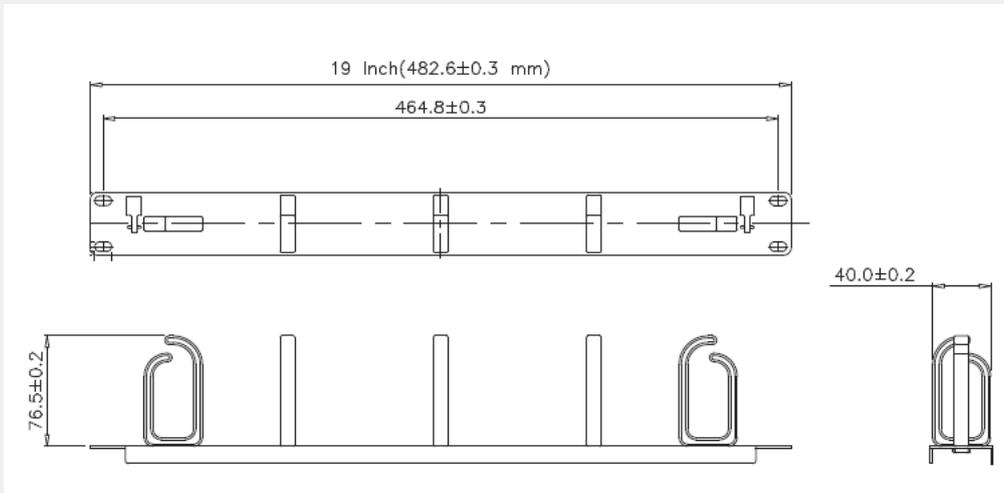

Features & Benefits

- High quality cold rolled steel frame.
- ABS UL94 HB Cable rings
- Powder coated frame to avoid rusting.
- Fits in 19in rack with 1RU space.

Environmental Characteristics

ROHS compliant

Mechanical Dimensions
