## An ode to Nation Building

During the recent strife, our team stepped up to a responsibility far greater than routine operations

From frontline technicians to backend engineers, every member played a critical role in ensuring uninterrupted network connectivity on the frontline across regions — even under the most challenging conditions!

Our STL-ers stepped up to the occasion and repaired the fibre communication network of the Army in J&K!

To every single colleague involved — thank you for showing what professionalism, resilience, and service truly mean. You make us all proud!

# Global demand poised for modest rebound in 2025, long term outlook remains stable

#### Reflections

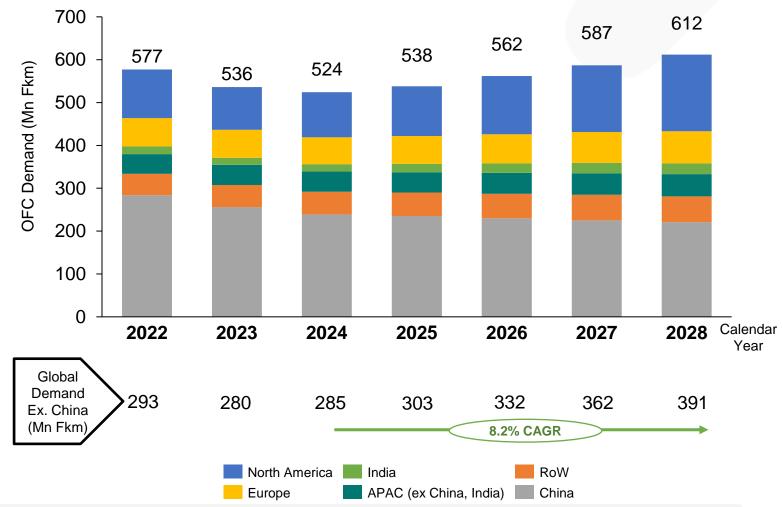

As per CRU;

- 2025 shows promising signs, with global consumption projected to grow 2.7% YoY after two years of decline.
- Recovery in 2025 is driven by rising US activity, India's BharatNet Phase III, a booming global data centre market, and scattered growth pockets worldwide.

#### **Future Outlook**

As per CRU;

- World demand ex-China expected to grow by ~8.2% in mid term.
- North America is set to lead in 2025, fuelled by private investment and BEAD activity. CRU projects record 116M F-Km consumption, with strong AI and data centre demand driving growth despite political uncertainties.

STL's focus markets North America expected to lead demand growth, with 2025 YoY demand expected to rise 10.1% STU

## Fiber is the backbone of all digital infrastructure

5G, FTTH, AI-DC all bank on the DNA that is optical fiber

## STC

#### "Where we have fiber, we win!"

AT&T continues to ramp towards their objective of reaching **50** *million-plus total locations with fiber by 2029* through a combination of organic build, Gigapower and other commercial open access agreements. : April 23, 2025

#### An increase of ~44,400 R kms of fibre in FY 25!

Airtel continues to invest in their network in terms of capacity and new geographical coverage along with significant investment in **data centres, home broadband** and other lines of business. : **May 13, 2025** 

## 🔊 airtel

#### "We're going to have a path to get to 40 million homes of fiber!"

Verizon's \$20 billion play for Frontier Communications is a clear indicator that the company is pressing forward with a plan to expand its **fiber footprint : April 21, 2025** 

"Infrastructure for the era of AI!"

**Hollow Core fibre technology** will ensure Azure can better serve its customers by allowing us to continue to grow and expand our global infrastructure, while also creating a higher capacity, more resilient and overall faster network to meet the growing demands of **Cloud and AI services : March 20, 2025** 

#### "We saw AI-based capacity spike coming"

Bill Long, Zayo's chief product officer mentioned that in the past, Zayo's average long-haul order ranged from 8 to 12 fibers. All of that changed 12-18 months ago, when customers started requesting counts from 144 all the way to 432 fibers.: **Feb 3, 2025** 

Tim Höttges argued that the build-out of mobile communications and optical fiber in Germany should be of "overriding public interest."

In the US, Höttges sees opportunities for further growth through the acquisition of the **fiber-optic companies** Metronet and Lumos in partnership with investors. The target in the U.S. is for a good **12 to 15 million fiber-optic households by 2030. : April 9, 2025**
