

FOTBFiber Optic Termination Box

Product Details

The STL Fiber Optic Termination Box is an ideal, cost-effective solution for FTTx networks, designed for both indoor and outdoor use. Perfect for environments such as multi-dwelling units and small offices with low to moderate port counts, it facilitates efficient fiber splitting and termination. The enclosure is built for quick deployment and easy customer connections. It features separate, lock-and-key access for cable termination and splice areas, ensuring restricted access to users. Crafted from durable, high-quality plastic, the box offers both splicing and patching capabilities, with high connector density and LGX cassette mounting provisions. This versatile design supports a wide range of applications in the access network, providing flexible and reliable solutions.

Features and Benefits

- Cable Anchoring Provision: Includes cable straps for secure anchoring, reducing the risk of cable stress or damage.
- · Cable Reeler with Minimum Bend Radius: Protects fibers by maintaining a safe bend radius during installation and maintenance.
- Integrated Splice Tray: Conveniently stores and organizes splicing fibers, enhancing ease of use and maintenance.
- · Mid-Span Access Storage: A cable loop can be stored for easy mid-span access, simplifying repairs and modifications.
- Single Point Lock with Latch Locking: Provides enhanced security and a better seal, ensuring the integrity of the termination box in various environments.
- UV-Resistant FR Grade Plastic: Built from high-quality, UV-resistant FR grade plastic for durability and long-lasting performance in harsh outdoor environments.
- **IP55 Protection Rating:** Provides robust protection against dust and water, ensuring the enclosure remains reliable even in challenging outdoor conditions.
- Wide Operating Temperature Range: Functions effectively within a temperature range of -10°C to 60°C, ensuring reliable performance in diverse climates.
- · Optional Pole Mount Kit: Allows for flexible installation, enabling mounting on poles for optimal placement and access.

FOTB Accessories

- **Versatile Compatibility:** Fits both FOTB 8 and FOTB 16 enclosures for flexible deployment. *Sealing kit included for FOTB 8 installation.*
- **Stackable Design:** Optimized for multiple height configurations, the stackable design ensures compact packaging and easy storage.
- Easy to Stack: Quickly stack and secure units by just fastening the screws for efficient setup
